FRIDAY, MARCH 23rd 1945

NUMBER 44

## Funeral Services for John Peter Larson

Funeral services over the remains of John Peter Larson, whose death was reported last week, were held in the 2nd Ward Chapel Saturday at 2 p.m. with Rulon H. Dahl of the Bishopric in charge. The choir was conducted by Jos. McLean with Mrs. A. W. Jones at the console. Flowers covered the lovely casket and rostrum and were a silent tribute to the respect in which deceased was held by all who knew him.

The opening hymn was "Oh My Father" and the invocation was offered by Elder S. B. Smith and the second hymn was "Abide With Me."

Pros. A. E. Palmer, a nephew of deceased was the first speaker and told of the boyhood days of John Larson, being born in Sweden, emigrating to the United States with his parents and living for a number of years in Minnesota, and then of the move on west to Utah and settling in the Sevier Valley, and in 1903 coming to Raymond. "Deceased was one of the gentlemen of the earth. He was honest and expected others to be the same. He never took advantage of anyone, and always met the exigencies of life with a calm spirit that made him master of every situation. Being with him a great deal in my younger days I learned many of life's fundamental lessons from him and I owe him much" was the tribute of the speaker concerning his deceased uncle.

Mesdames King and Walker sang "We say Goodnight here but Good Morning Up There."

Elder J. W. Evans spoke of his 42 years acquaintance with deceased and concurred in all that the previous speaker had said respecting the fine character of deceased. He had been in the Larson home many, many times and was always treated with the greatest respect, and consideration. He urged the family and the grandchildren to cherish and to keep green the memory of their deceased father and grandfather.

Elder Aziel Stevenson sang the solo "Thy Go Where You Want Me to Go."

Elder Jas. H. Walker in his remarks spoke of the dependability of deceased and said that he was a man who always kept his word and he expected others to do the same with him. He paid tribute to the wife and mother, of the family who had always been so devoted to all of their needs. He urged the family to copy the many virtues of deceased. Though John Larson had never joined the Church he was always very friendly and had undoubtedly absorbed much of the spirit of the gospel of Christ. The speaker preached a fine sermon on the reality of the resurrection, and urged all to live clean and well so they will be prepared to meet their record when they are brought to judgment.

Elder Dahl on behalf of the family thanked all for their assistance to the family during their sorrow and added his tribute to the fidelity and faithfulness of deceased and also of the family.

The closing hymn was "Shall We Meet Beyond the River" and the benediction was by Pres. Melvin T. King.

Interment was in the local cemetery and Bishop L. L. Palmer, a nephew of deceased dedicated the grave. Phil bearers were four sons, Roscoe, Loran, Dean and Floyd, and two sons-in-law, Curtis West and Floyd Litchfield.

The 6th Quorum of Elders of the Raymond 2nd Ward, of which Ellys P. Piegrass is President, held a social and dance at the Ward Recreation Hall Wednesday evening. There was a large attendance and a most enjoyable evening was had by all.

## New Dentist Coming

Word was received by phone Tuesday that Dr. S. M. Somers, Dental Surgeon, who has had four years service overseas will be in Raymond about the 1st of April to open about the Dental parlors closed the last of December by Dr. F. M. Hall when he went to Vancouver, B.C.

This will be welcome news to local people as dentists everywhere are so busy that it has been very inconvenient to get any work done the last few months, and nothing could be done without first making an appointment.

## Engagement Announced

pleasure in announcing the engagement of their third daughter, Mary Beth, to Mr. George Arthur Webb, of Lethbridge. The marriage to take place at 8 p.m. on Thursday, March 29th in the First Ward Church.

## NEWS NOTES

Tr. a Want ad. If you want to sell or Trade, They always list the mark.

Throughout the boys home on leave over the week-end were Evan Jenson, Bill Nalder, Monte and Bud Palmer and Lloyd West.

Mrs. Della Holt left Wednesday morning to join Grant in Taber. Alta Her beauty parlor here has been taken over by Mrs. Evelyn McLennan.

Alma Hancock was in the Wrentham district Tuesday getting a boiler ready to bring up here for his pasteurization plant. He purchased the boiler a couple of months ago.

Elder W. W. Wilde, Mrs. F. R. Taylor, Mrs. S. B. Smith and Miss Jeannine Wilde attended services in Tyrells Lake Sunday on a regular missionary appointment and Jeannine contributed a couple of solos to the program.

## SAYS MOVE FOR HIGHER BEET PRICES REJECTED

WINNIPEG, March 3 — Herbert Sulzers of Winnipeg, vice-president of the Canadian Sugar Beet Producers Association, said in a statement today that recent representations to the Dominion government by organized beet growers for higher prices in 1945 have had a negative result.

He said a brief submitted to the government recently said that "unless some reasonable adjustment of the price to be paid for the 1945 crop is made known to growers in early spring, there is a definite possibility of a considerable average reduction instead of a desired increase."

He said the association also asked for a beet support fund of \$1,500,000 to \$2,000,000 a year, starting with the 1945 crop. The fund would be distributed among growers of Ontario, Manitoba, Alberta and Quebec. Money for the fund could be provided through removal of the present tax on sugar of \$1 a bag.

Phil Baker, national president of the beet growers' body, said in Lethbridge Saturday, that he had no definite decision from Ottawa on the government policy. He expects an answer to the growers' representations soon, however.—The Lethbridge Herald.

## War Finance Committee Films will be Shown Soon

Thousands of Canadians in rural areas are going to be the first to see some of the most absorbing moving pictures taken overseas during this war. The National War Finance Committee, with the co-operation of the National Film Board and independent projectionists, is sending to schools, community halls and churches in the country areas of each province a show which matches in interest anything displayed in big theatres of larger centres.

One picture will show how Canadian boys in uniform overseas spend a 48-hour leave behind the front lines; another reel contains the first pictures released by the censors showing how the Allies built and towed across the English Channel the huge docks settled on the shores of Normandy. Then comes a ten-minute film made in Hollywood expressly for the Eighth Victory Loan, starring Allan Ladd, Betty Hutton, William Bendix and Susan Hayward; a brief thought-provoking, last but not least, the programme carries pictures taken in London, England under the terrific attacks of German robot bombs. In this picture one actually watches the jet propelled bombs approaching the city. One listens as the roaring of the motor becomes suddenly silent and watches the explosion as the deadly missile drops not far from the camera. Close-ups are shown as the United aircraft men score hits on the robots and as Canadian Ahmen speed in to explode the bomb in mid-air.

Among the supplementary films which are being sent out to augment this Victory Loan Programme is one, "Report on German Morale," produced by the U.S. War Department from captured German film. Through this picture the Canadian has his first look at the German people on their home front in war time and learns just how the Nazi party has been able to keep the civilians and armed forces in hand during these last difficult months.

## NEWS NOTES

Mr. and Mrs. Geo. H. Court are visiting for three weeks with their son-in-law and daughter, Mr. and Mrs. Vern Henry in Rossland, B. C.

Harrison Palmer of the Canadian Active Army was home over the week-end for the funeral of John Larson.

A few drops of rain fell Wednesday afternoon about 3:30, but hardly sufficient to wet the sidewalks. The week has been clear and quite mild for this time of year.

V. L. Phillips who is working for the U.S. Government in the Alaska country is home for a two weeks leave. Volney has been on the same job for two and a half years.

At Rotary on Monday Louis Brandley who had recently been to Montreal representing the Beet Growers' reported briefly on his trip and told of some of the things the growers were endeavoring to do.

The regular meeting of Sugar City M. B. was held last Tuesday when routine business, passing of the by-laws etc., occupied the time of the meeting. The swearing in of the new members and the re-organization of the Council, as well as the setting of the mill rate will all be done at next regular meeting on April 5th.

## News from the Library

During the last two months of the year 1945 4,650 books were loaned from the library, 69 new books were added, 97 books were rebound and 244 repaired.

406 cards were mailed to readers for overdue books or books they were waiting for.

Desk receipts were \$24.34  
Desk disbursements were \$12.93  
Cash donations were: Readers progress Club, \$5.00 Millards Club, \$5.00 Iris G. Jones \$2.00  
New Books:

"By the Light of the Study Hall", "The Secret in the old Well", "The Portrait in the Sand" by Carolyn Keene. "Beverly Gray Searler" by Beverly Gray in "The Orient" "Beverly

### Report on Hospital Shower

The following is list of the articles received at the shower at the official opening of the Municipal Hospital on Saturday Feb. 3 1945.

77 cans of soup, 17 cans of vegetables, 5 cans of carnation milk, 7 jars of preserves, 1 tin B. Powder, 1 tin cocoa, 2 tins honey, 2 pails corn starch, 1 can cinnamon, 1 can postum, 1 can mustard, 1 bottle vinegar, 1 bottle each of vanilla and lemon extract, 2 boxes sunny boy, 1 box cream of wheat, 1 box oatmeal, 1 box macaroni, 1 box crackers, 1 squash, 1 can pepper, 1 box salt, 2 sets of salt and pepper shakers, 3 vases, 3 basins, 7 tea towels, 1 plant, 1 meat fork, 1 funnel, 2 sieves, 5 years to come, During the war years cups, 6 sherbet dishes 16 fruit dishes, 6 glasses, 9 small glasses, 1 large blanket, 1 Electric fan, 2 potato mashers, 1 desk lamp. Credit to the value of \$52.50 at the Mercantile Store. 18 mustard cups, 12 sheets, 6 pr. sleepers, 16 baby blankets, 12 baby shirts, and 1 dozen tea pots.

All of these articles were greatly appreciated.

P. M. Dahl, P.N.

Mrs. S. I. May, Mrs. Chas. Innis and Miss June May went to Calgary Wednesday evening to spend a couple of days.

Pres. J. W. Evans, Frank R. Taylor, Mayor Wm. Jensen, John P. Salmon, S. I. May, J. LeRoy Anderson and Alma E. Hancock were in Magrath on Wednesday on Board of Trade matters.

Mrs. S. I. May, Mrs. Chas. Innis and Miss June May went to Calgary Wednesday evening to spend a couple of days.

Pres. J. W. Evans, Frank R. Taylor, Mayor Wm. Jensen, John P. Salmon, S. I. May, J. LeRoy Anderson and Alma E. Hancock were in Magrath on Wednesday on Board of Trade matters.

## Lions Club Meets

The Lions Club met in the 2nd Ward Hall, Monday evening, March 19th with Pres. Mutt Ralph in the chair.

The meeting opened by singing "O Canada" and Lion Rulon Dahl offered prayer.

Community singing was enjoyed by all present under the direction of Lion Tamer Jack Vanderbilt with Lion Casey Veen at the piano.

Lion Don Wilde Chairman of the Sight Conservation Committee thanked the Club for the flowers he received while a patient in the Lethbridge Hospital and during his talk on Sight Conservation he introduced Mr. Kirkpatrick of the Calgary Power Co., who spoke to the members on the care of the eyes from the point of view of proper lighting. This talk was very interesting as well as very educational.

Lion Rulon Dahl, Chairman of the Charter Night Committee reminded the members that Thursday, March 29th was Charter Night and that it would be held in the Opera House.

Sec. Dean Rolfsen reported that the sum of \$126.00 was raised from the Variety Program that was put on by the Club towards paying for the Loud Speaking System in the Opera House. Heartly applause was given Joe McLean as Chairman of the Variety Program committee.

The Lions Hour was given by Kirkpatrick for his talk.

The meeting closed by singing the National anthem.

By O. S. Longman, Deputy Minister of Agriculture

Unofficial estimates indicate that Alberta's swine production in 1945 might be 25 to 30 per cent. lower than last year. Marketings for the first two months of 1945 are already 30 per cent. under those of the same period in 1944, and lately packing plants have been unable to obtain sufficient hogs to operate at full capacity.

Lower swine production in 1945 has been anticipated and is no cause for alarm unless the decline continues at the rate it has occurred during the first two months of this year.

The swine industry in Alberta has reached such proportions that Alberta farmers must give careful consideration to the relative importance of this enterprise compared with others, not only now but in the years to come. During the war years 1940 to 1944, Alberta swine producers marketed about 11,000,000 head of hogs which yielded a gross income of about \$250,000,000. This sum is almost double the 1936 recorded Alberta mortgage and then in debt. Swine marketings of 11,000,000 head for the years 1940-44 represent a market for approximately \$200,000,000. Swine marketings of 11,000,000 head for the years 1940-44 represent a market for approximately \$200,000,000.

Swine production in Alberta is a preference for a number of reasons. Not only does Alberta produce the largest provincial percentage of swine in Canada (34p.c. in 1944), but about four out of five Alberta hogs are exported to Great Britain as Wiltshire Sides. Alberta is thus a most important link both in respect to domestic supplies and export markets.

Alberta swine producers should appreciate their present position, not only in respect to their own interests but also to the rest of the Dominion. Canada has established an extensive and valuable market in Great Britain. While this market developed under war conditions, a large part of it may be maintained providing that nothing occurs to alienate the British consumer.

The war is not yet ended, and the need for Canadian bacon is as great, if not greater, than before. Under these conditions nothing would give Great Britain greater justification for seeking her bacon requirements elsewhere than for Canada to "slow down" swine production at this crucial time. Canadian agriculture could not do better in the closing hours of this struggle than to give added force to the final blow by assuring to the United Nations all of the foodstuffs she can produce. It is possible that now is the time when Canada, and particularly Alberta, can most effectively demonstrate her loyalty and support for world peace and freedom.

Alberta in her own interests, in the interests of Canada and Britain should maintain a strong position in the British bacon market. What Alberta does in no small measure, will determine Canada's future bacon trade with Britain. This trade can be preserved only by maintaining an adequate and continuous supply of the high quality Wiltshire sides sought by the British consumer.

Arlo Palmer of Calgary was hero over the week-end coming from Calgary for the John Larson funeral on Saturday afternoon.

Speakers at the 2nd Ward Sunday evening were Elders H. M. Holmes, J. B. Meeks and Jas. H. Walker, on their missionary assignment. A good crowd was present and enjoyed the meeting.

### CAN WE IMPROVE?

A leading citizens of one of our neighboring towns was heard to remark recently "you have a very fine town here, but it would be much better if your sidewalks were repaired and your streets surfaced with something to keep the dust in control." When this statement was made weeds, paper and dust were swirling around in the air and the 6 and 7 inch ruts following the last

thaw were still plainly visible. There might be a point here for consideration of the Council.

Then we thought of the streets and lanes and yards around the town and we wondered if we as citizens were doing our share as citizens to make the town look as well as it might. We thought maybe before we castigated our City Dads so much we ought to follow the Master's advice and "let him who is without sin cast the first stone. There are a few things that would help a great deal to make a better and drier walk or road if they were put in the right place. There are accumulations of rubbish that should be burned or taken to the city dump. We see fences weed choked, paper blown up against them, manure piles and what not in nearly every yard. We are just as guilty as anyone else and so what we say applies to us.

We don't mention these things in a fault-finding spirit. We mention them because a successful community depends on the community interest of every citizen in it. The owner of the

mansion and the owner of the small dwelling all have the same responsibility in respect to their community. You go into a town or village, and neat fences, well kept lawns, freshly painted houses and so on strike a note of pride in the local people that reflects to the visitor to that town.

We find fault with our town to all and sundry and especially with our Councilmen, and yet, when election time comes around there are men, and many of them, well fitted to serve who refuse to act because they dislike criticism or have no time for public service.

Raymond will never be any better than we, her citizens. Let's perk up this spring and clean up our town on our own initiative, then when get to the big things that need united effort and town help, our City Dads can do their part in the last big heave and we will have a town we can all be proud of and boast about. Is 1945 the year to start it?

Mr. and Mrs. S. W. Low of Cardston were Raymond visitors Tuesday afternoon. "Vess" having business here. He is Manager of the Cardston Creamery.

### WHY?

A sufferer who lives close to a railroad yard in the suburbs wrote the following to the railroad company complaining about the racket made by the switch engine:

"Gentlemen: Why is it that your switch engine has to ding and dong and fizz and spit and bang and hiss and pant and grate and grind and puff and bump and clang and hoot and whistle and wheeze and jar and jerk and howl and snarl and puff and growl and thump and boom and clash and jolt and screech and snort and snarl and slam and throb and roar and rattle and yell and smoke and smell and shriek all night long?"

## REGISTRATION FOR FAMILY ALLOWANCES

Starts on  
**MARCH 22nd, 1945**

**TO OBTAIN  
THESE ALLOWANCES**  
every child under 16  
must be registered

**PARENTS:** Through the mail, shortly after March 22nd, all families will receive a Family Allowances Registration Form. Fill in this form as soon as it is received and mail it back in the envelope in which it came. Please do this promptly—it is in the interests of your children.

The form you will receive is very simple. There are only seven questions and only a few minutes need be required to complete the form, but be sure to answer every question.

Family Allowances are being provided to assist parents in the raising of their children. This monthly allowance is to be used for health protection, for doctors, dentists and nurses; to provide better food, adequate clothing and shelter, and to help equalize opportunities for all children.

**INCOME TAX:** No one will benefit from both Family Allowances and a full income tax deduction for their children. Parents have the choice of applying for their Family Allowances or not claiming the allowance and claiming the full deduction for their children under Income Tax. If they claim the Family Allowance, the amount of deduction from tax allowed for children under the Income War Tax Act will be reduced by the amount of any Family Allowance received. Anyone who is uncertain whether or not he or she will benefit from Family Allowances more than from Tax Deduction should register for the Family Allowance and in this way be on the safe side. Incomes may change during the course of a year.

### FIFTYCENTS WILL STOP WINTER DRIFTING

Is it worth fifty cents per acre to stop the winter drifting that now is occurring every time the chinook winds have the ground of snow? This winter drifting has become serious in parts of Southern Alberta that could easily be prevented at that cost. It merely means going over the field once with a one-way or common disc made into a lister.

The one-way is the best implement for this job and to convert it into a lister or moderate ridging of frozen ground, all but every fourth disc is removed. The gang bolt must be tightened up by adding washers so that the spools will fit snugly against the remaining discs to prevent them from breaking and it may be necessary to change the hitch somewhat to get proper cutting. With a common disc all but every third disc should be removed.

The Experimental Station at Lethbridge frequently has used the one-way and the disc for checking winter drifting and always in cooperation has proved successful. A good time to do this work is when there is a slight silt of snow or when the wind is not blowing if the ground is bare. However, the ridging can be done at any time but if the soil is drifting it is necessary to work from the windward side of the field so that drifting soil will not cover the ridges made by the one-way.

There is little difficulty encountered when working with wet surface soil while the ground is still frozen underneath as the vibrating of the discs on the solid frozen material below shakes off the mud that otherwise would adhere to the discs. Only the very thickest clay has given any trouble.

This winter listing, when the soil is frozen, does not make very deep furrows and once over with the duckfoot cultivator, going the same direction as the listing furrows, will smooth out the field in the spring before seeding.

This method of stopping winter soil drifting is so easy but so sure to stop the drifting that no one should permit their soils to blow. As so many fields have started to drift and the top soil has been worked into a fine mass, the situation may be extremely serious at any time if we get some heavy chinook winds. Also it should be remembered that all of those fields, that are not checked, will present a difficult problem at seeding time.

### WHEAT NEEDS SUB-SOIL MOISTURE

The 1915 agricultural program calls for about two million less acres of wheat than the acreage needed in 1914. Farmers in Southern Alberta can support this program by refraining from seeding stubble this spring. Besides supporting the dominion wide program, farmers are justified in avoiding stubble seeding from their own personal point of view. The chances of producing a profitable crop on stubble in 1945 are not good over a large area of Southern Alberta.

Experience and experiments indicate that plentiful sub-soil moisture reserves are needed in most years to produce a profitable crop of wheat. The wheat plant will take practically all the moisture to a depth of 4 feet and even some at depths still lower. Sub-soil moisture comes into play when the wheat plant requires large quantities of moisture at heading time. It is at this time that crops start to deteriorate if sub-soil moisture reserves are light.

It is estimated that 12 inches of moisture are required to produce a 20 bushel crop. Since it is very seldom that 12 inches of rain are received during the growing season, the necessity of having moisture reserves in the sub-soil can easily be appreciated.

Depths of moisture determination were made on the twelve sub-stations in Southern Alberta last fall and in nearly all cases moisture reserves in stubble were nil. Even in fallow land there was only one and a half to 2 feet of moisture in the majority of cases. Winter precipitation is not likely to add much to the moisture reserves. Therefore the 1945 yield on stubble in many districts will depend almost wholly on precipitation received in the grow-

ing season.

It is suggested that farmers determine the depth of moisture before seeding. One determination on land that is not in a draw and not in a low, place will likely be sufficient to give a good idea of sub-soil moisture reserves available for 1945.

If soil moisture determinations are made we predict that in Southern Alberta there will be very little stubble seeded to wheat in 1945. This will both help in carrying out the dominion program and at the same time avoid disappointment to the farmer personally.

### WHAT ARE DISTRICT EXPERIMENT SUB-STATIONS

Many people will have noticed the large District Experiment Sub-station sign at the gate of the occasional farm in Southern Alberta and wondered "What exactly are these sub-stations?" District Experiment Sub-stations are privately owned farms where the farmers and the Dominion Experimental Farms Service cooperate in carrying on experimental work that is of value to agriculture in general and of particular interest to farmers in the immediate neighborhood. Through the sub-stations the work of the Lethbridge Experimental Station is carried directly to farmers in outlying districts. In Southern Alberta there are eleven sub-stations located at: Acadia Valley, W. A. Heiden, operator, Bladon, J. Barnes, Clarendon, D. L. Reynolds, Cradock, J. L. Brumm, Drumheller, O. Andrew, Foremost, I. G. Wolfe, Lomond, E. M. Benson, Nobleton, Chris T. Withage, Pincher Creek, E. P. Cyr, Rockyford, G. A. Kennedy, and Whiffa, W. N. Babe. These sub-stations are supervised by H. Chester of the Lethbridge Experimental Station staff.

The sub-stations were first established in 1935 under P.E.R.A. as part of a program to improve agriculture in the drought area of the prairie

In some cases established operator is encouraged to grow a good garden using suitable varieties. The type of agriculture suitable to the district is also given considerable attention.

Field days are held annually at each station when topics of current interest and the work of the sub-station are discussed. All field days are well attended and during recent years the total annual attendance has been approximately 1,600. The field day provides an excellent opportunity for farmers to discuss their problems both with their neighbors and representatives of the Dominion and Provincial Departments of Agriculture.

multiply by millions!

You've often watched the teller stamp your cheque. Every day, in every branch of every bank in Canada, cheques are being scrutinized, stamped and recorded. During the war years, this daily flow of cheques through your bank has swollen to a torrent. Deposit accounts are more numerous and active than ever before. This increase reflects the tremendous activity of Canadian life and business. Production, purchases and payrolls have all reached record levels.

In addition, three-quarters of a million men and women in the armed services must get their pay, and their dependents receive allowances regularly.

The handling of this wartime volume of cheques is quite apart from numerous special services which the banks have undertaken—the delivery of millions of Victory Bonds and the sale of countless War Savings Certificates; ration coupon banking; subsidy payments to producers; foreign exchange operations.

Yet all this extra work has been carried out at a time when new help has had to be trained to take the place of more than 8,500 bank workers now in uniform.

FOR SALE — REGISTERED RED BOB SEED WHEAT, C. A. DUNCAN LETHBRIDGE.

TOP PRICES FOR YOUR HOGS — I buy hogs every Thursday at the Raymond Stock yards. Highest prices. — E. H. Nilsson, Raymond.

wall fell. I asked the foreman, "Are these men skilled, and the kind you would hire if you were to build?"

He laughed and said: "Way, no. Indeed, just common laborers is all I need; they can easily wreck in a day or two what has taken builders years to do."

So I said to myself, as I went on my way, what part in the game of life do I play? Am I a builder who builds with care, carefully measuring with a rule and square? Am I a planner, my deeds to a well made plan, patient in doing the very best that I can? Or am I a wrecker—who walks the town — content with the labor of tearing down

## Lemon Juice Recipe Checks Arthritic Pains Quickly

If you suffer from arthritic, rheumatic, or neuritic pain, try this simple, inexpensive home remedy. Get a package of Ruex Prescription from your druggist. Mix it with a quart of water, add the juice of 4 lemons. It's easy and pleasant.

You need only 2 tablespoonsful two times a day. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pains are not quickly relieved and if you do not feel better, Ruex Prescription will cost you nothing to try. Your money refunded if it does not help you. Ruex Prescription is for sale and recommended by

## KNOW the TRUTH about the C. C. F.

The C.C.F. is the only party defending the Co-operatives against unfair taxation.

If the Wheat Pools are taxed, while handling the farmers' wheat at cost, then in fairness the city dwellers public utilities, such as Street railways, Electric light systems and Water systems ought also to be taxed as they are also Co-operative systems serving the people at cost. Support the C.C.F. and defend your Co-operatives, whether they handle wheat or electricity.

## Canadian Pacific Freight Trains Keep Rolling to All-Time Record

During the month of February, supplies, both export and domestic, the Canadian Pacific Railway Figures show that 3,500,000 bushels of grain were delivered to steamers at Saint John in February of 1945, as compared to 2,400,000 bushels in February of 1944.

In February alone, C.P.R. snow-plows travelled a total of 55,776 miles. They went twice around the world at the equator so that trains might go through to supply armies of the United Nations and the people of liberated countries. That is a fact that the general public may not have realized. But certainly those loyal and efficient railway workers who have battled blizzard and cold as low as fifty degrees below zero—the missing heroes of the Battle of Supply—They know the importance of their work.

Mr. Coleman went on to state that in addition to the movement of traffic normally routed over Canadian Pacific rails, the company had handled a substantial amount of traffic diverted from both Canadian and United States railways which had been unable to cope with the unprecedented snowfalls of this year. Many United States rail terminals had been "plugged" with snowed-in freight cars which obviated the movement of necessary supplies to New England and other Eastern areas in that country. As a result, many freight loads were diverted into this does not apply to the Canadian Pacific Railway, which has succeeded in maintaining current movement of eastward over Canadian Pacific lines.

Mr. Coleman commented on the February 26th Dominion Bureau of Statistics' quarterly review of the course grain situation. This report stated that "with box cars snowed in it is difficult to get sufficient cars to move grain for feeding and wheat to the Eastern seaboard for export overseas." He declared that this does not apply to the Canadian Pacific Railway, which has succeeded in maintaining current movement of eastward over Canadian Pacific lines.
